## Do You Love Cars? Are You Passionate About Cars?

### Become A Car Broker And Earn £500 To £1,000 Or More... Every Week...

This is a real business opportunity for you to make a good income and to enjoy working for yourself - and all you really need to get started right now is the following:

- Smartphone - PC / Laptop - Access to the Internet
- Passion, Commitment & Dedication

That covers the basics of course - which is where we then come in... showing you what this is all about, what you need to do, and how, and when! The good news is that with your car broking business, there is:

- No product stock (no cars to buy, store or insure)
- No staff you need to hire
- No office premises you need to rent
- No major overheads
- No travelling all over the country
- No territory, geography, or trading restrictions
- No 'hidden' payments or sales royalties to pay

In fact, being a Car Broker is the ultimate 'virtual' business model - and here's why...

***“The fundamental concept of the Car Broker Business Model is all about identifying & sourcing used cars (private or trade) from people looking to sell them, and then working with people (private or trade) who want to buy them”.***

### What exactly is Car Broking?

Not sure what we're talking about here? Do you know what a broker does? Maybe you have an idea, but just need to double check and be clear in your own mind!

Watch this [video](#) - and all will be revealed...

### Why does the motor trade need brokers?

There are thousands of used cars out there every day that are waiting to be sold by private owners, with these owners often frustrated at not being able to find a private buyer. They are reluctant at this point to utilise any of the car-based websites such as 'We Buy Any Car.com', and yet there are dealers throughout the country who will often snap these up and pay you (the broker) a good commission for helping them to find these cars.

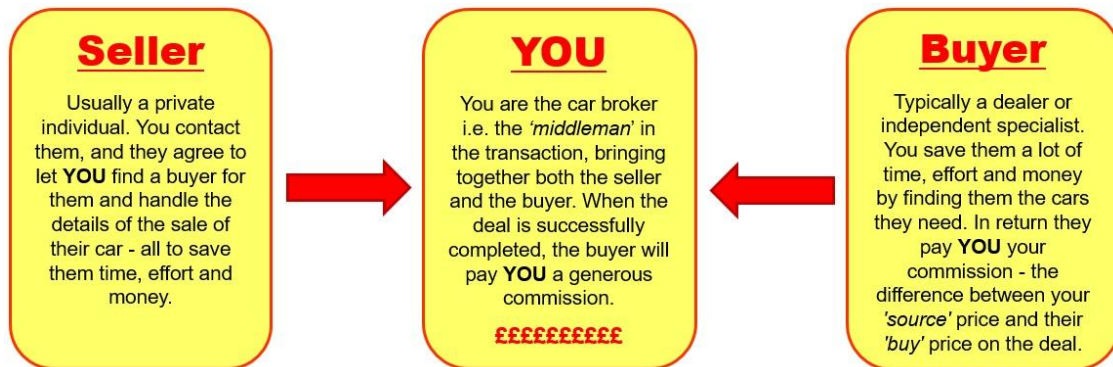

The used car market is huge – with over 7 million used vehicles changing hands in 2024 in the UK alone which equates to over 19,000 units a day (Source: SMMT). This means there are thousands of used cars out there every day waiting to be sold by private owners - with these owners often frustrated at not being able to find a private buyer - and thousands of car dealers throughout the country who are desperate to source cars every day.

These dealers need to fulfil their business sales targets, and good-quality second-hand / used cars are their 'bread and butter'.

For example, a typical dealer may manage the sale of about 100 used cars from just one site - each and every week. That's a large turnover of vehicles – which means they must continually find new stock - but they can't do it all themselves.

And this is where a car broker comes in...

## How does a car broker help to resolve this?

The broker acts as the '*middleman*' in the transaction between the seller and buyer and helps to negotiate a deal that is agreeable to both parties.

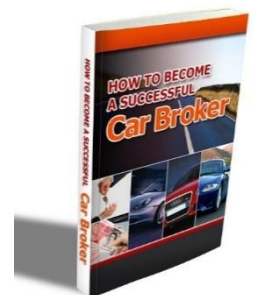

## Where do we (Auto Car Brokers) come in?

We offer a very comprehensive range of materials (based on different modules) which will help you to establish your own car broker business and 'tap into' this huge market in the used car sector.

## What are we offering?

With the benefits of working from home, and whether you want to work part-time or full-time, this is a genuine and proven business with the realistic potential for you to generate a rewarding and sustainable income, with few start-up costs and minimal on-going costs.

Your investment will allow you to get up and running quickly and begin to establish your business in the shortest possible timeframe.

You can start small, and only purchase the modules you need initially to get up and running – this keeps your costs low from the outset but provides you with a clear understanding of what's involved. The core module is the very comprehensive and detailed **Car Broker Business Manual** that encompasses thousands of man-hours of development alone, with input from a number of people over many, many years - and this provides you with everything you need to be successful in this business.

## This is a Business... NOT a Franchise!

This is a proven business where you can potentially earn £500 - £1,000 per week, even part time, and generate a successful, rewarding, and sustainable income!

But one important point that you need to understand is that this is **NOT** a franchise. This means that there are:

- **NO** post code or territory restrictions – you can trade anywhere; you're not restricted to the UK
- **NO** royalties, sales commissions, or any additional payments to make to Auto Car Brokers.

This is **YOUR** business. **YOU** run it any way you want to – but it will be **YOUR** way!

It doesn't matter where you live, or where the sellers are located or where the buyers are located. They can even be in different countries. There are no restrictions placed on how or where you want to conduct your business.

### What can you expect?

Many people think that it is impossible to start their own part-time or full-time business, as they don't know how or where to start. We will show you exactly how to set yourself up, and more importantly we'll give you all the information about where to go and what to do and cover absolutely everything you need to know.

Then we go into the details of what this business is really all about – what's involved in sourcing cars, how you find sellers, how you find buyers, how you make the sale happen, and how you make your commission.

**Over 16 years of solid commercial experience** - have gone into the development of our system and proven process... so you can quickly get up and running and earn **£500 to £1,000** per week - by just doing just a few car deals... and you can even start by doing this part-time as well, thus keeping your current job whilst you build your new business.

In fact, using our simple and easy to follow system, you will have everything you need to launch and build your own car brokerage business.

### What does the Car Broker Package cost?

The '**Car Broker Business Package**' is a suite of modules (individually priced) that will provide you with a comprehensive array of information, materials and documentation to assist you in setting up your car broking business.

Together, they form a complete '*business in a box*' solution - providing you with an array of comprehensive information and 'know how' to get your business up and running smoothly. Over 16 years of business experience has gone into the preparation of this Business Package, to make it easier and simpler for anyone else to get involved with providing a service to the motor trade.

The 'core' module, the **Car Broker Business Manual** (for example) shows you exactly what you should be doing – setting up your business from scratch, getting everything in place, building your marketing materials, selecting the marques you want to focus on, conducting your research, doing your due-diligence, setting out your daily routine - all of which is important as you then start to develop your contacts with both sellers and buyers.

More importantly, we can also provide you with all the support you need to get up and running – and there is a dedicated module you can purchase, just for this.

For a complete guide of what's available, read on...

#### ➤ **Car Broker - Business Manual**

- This is the core module of the Car Broker Business Package and comprehensively shows you exactly what you should be doing right from Day One, and then on a day-to-day basis and provides you with a very detailed understanding of the marketplace and how to get your business up and running and profitable quickly and efficiently.

- **Car Broker - Forms Pack**
  - This module includes templates for all the forms that you would require to operate your car broking business.
  - If you don't want to develop all your own paperwork from scratch, then this pack is for you. Why re-invent the wheel if you don't need to?
- **Car Broker - Documentation Guide**
  - This module provides the full 'Documentation Guide' for how to use all the forms available within the Documentation Pack and how you can change them to suit your own business.
- **Car Broker – Frequently Asked Questions**

  - This module provides you with a detailed list of all the current car manufacturers in the UK, providing addresses, phone numbers and website information.
- **Car Broker – Top Tips Guide / Buying & Selling**
  - This module provides you with a really beneficial insight into our top tips for buying and selling cars - some of which you may find invaluable.
- **Car Broker – 'Get You Started' Emails**
  - Automated 'Get You Started' emails for the first 2 months.
  - This module will ensure that you start to receive a whole sequence of emails over the first 8 weeks - all of which will provide you with important information with regard to how to get your business set up, what to do and in what sequence - in order to get your business successfully off the ground.
  - Clearly of course, these emails will relate to you having purchased the 'Car Broker Business Manual' in the first instance.
- **Car Broker – Business Support Package**
  - This module is all about helping you to grow your car broking business as quickly as possible, and if you purchase this module, you will receive our full 'Business Support' package which includes our unique service to provide you with confidential advice and support (by phone, text, email, Zoom & Teams) to help get you up and running with your new business venture.
- **Car Broker – Full Business Package – (Includes ALL the above modules – but @ 20% off)**
  - You can also purchase the FULL Car Broker Business Package (which includes ALL the modules outlined above – but with a full 20% (or £438) discount. So worth considering!

We can provide you with everything you need to know about what's involved in identifying and sourcing cars, either privately or through the trade - and how to negotiate the right prices, both with sellers and buyers!

It doesn't matter whether you intend setting yourself up in business full-time, or perhaps even part-time initially, or indeed whether you just want to deal with the odd car now and again!  
We cover everything... and every eventuality!

**AND... to get started, all you really need to purchase initially is the 'Car Broker - Business Manual' module – which is just... £545.**

**And then you can take additional modules as and when you need them, at your own pace, which also helps to spread the overall cost! Because you don't need everything at Day One!**

**BUT... you do also have the opportunity to purchase the complete Car Broker Business Package in full for just... £1,751. And this price includes ALL the modules, but also with a 20% discount (or £438) off the normal price! Now that IS a bargain!**

**AND... if you need help with the funding of your investment, then we try to make this easier for you as well. The way that PayPal works now makes it much easier for everyone to spread the cost – which means that if you were originally looking to apply for finance, well then maybe we can help.**

**If you are looking to purchase, then when you come to check out on the Auto Car Brokers website, you basically have three options:**

- 1. You can choose to pay the outstanding balance – all at once, or**
- 2. You can choose to pay the balance in 3 equal monthly instalments – with no interest being applied, or**
- 3. You can request to pay the balance over a longer period – but interest would obviously be applied to this.**
  - a. In this instance, PayPal will do a credit check and other basic checks.**

**Hopefully, these options now make it much easier for everyone – rather than having to formally apply for a finance loan.**

**That can often be a very drawn-out procedure - with everything else that you would need to do.**

**NB:** However, you want to run your business, the basic principles of how to achieve success are exactly the same - because if you apply the same methodologies that we can show you for how to source the right cars and how to find the right buyers for those cars, then you will succeed.
